EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Kirsten A. Gruneberg on 08/30/04.

The application has been amended as follows:

IN THE CLAIMS

In claims 12 and 13 @ line 2, "an alcohol" has been deleted and "alcohols" has been inserted in its stead.

In claim 18 @ line 2, "0.1 to 200 g/min" has been deleted and "0.1 to 200 g/10 min has been inserted in its stead.

2. The following is an examiner's statement of reasons for allowance: After further consideration coupled with Counsel's persuasive arguments, the instantly claimed invention is deemed allowable over the prior art of record, Blumberg et al(U.S. 3,513,142), meritorious of the closest prior art, as per said art neither anticipating nor rendering obvious the precisely defined method for producing an ethylene-vinyl acetate copolymer (1) and method for producing a saponified ethylene-vinyl acetate copolymer (4), as claimed. One having ordinary skill in the art would not have been endowed with any motivation to extrapolate the antecedently recited methods from any of the prior art of record, including Blumberg et al, with any reasonable expectation of success. More specifically, one of ordinary skill in the art would not have been motivated to deoxidize, in advance of being introduced into said stripping (recovery) column, the

alcohol-based solvent in the scheme of Blumberg's process with any reasonable expectation of

success.

Any comments considered necessary by applicant must be submitted no later than the
